"I build **rapid AI prototypes** — often within days, not weeks — and translate them into **scalable intelligent solutions** that drive real business outcomes."

Philosophy

⚡ Speed as a Strategy

Ship working prototypes in days. AI is a force-multiplier, not a replacement for judgment.

🧪 Vibe Coder

Architects the intent. AI agents handle implementation. Review, verify, deploy.

🔗 Bridge Builder

Connects Finance, Engineering, and Commercial — speaking every team's language fluently.

🎓 Perpetual Learner

Synthesizes Karpathy, Po-Shen Loh, Stanford CS230 into interactive educational articles.

📖 Data Storyteller

Transforms complex data into narratives that compel boards to act decisively.

🕵️ Data Investigator

Uses statistical rigor and official data to surface insights others miss.

Let's Build Something Extraordinary
